Phillis Johnson-Ball  
Surface Transportation Board  
1925 K Street NW  
Washington, DC 20423  
Finance Docket No. 34797

Dear Ms. Johnson-Ball:

I am writing to voice my opposition to the proposed trash transfer station at the former Olin Chemical site in neighboring Wilmington. I am concerned about this proposal for several reasons:

- The trucks carrying waste through our streets will dramatically increase the amount of traffic in our neighborhoods. There are schools, houses, and small businesses here that will be negatively impacted by this traffic.
- I understand that the Olin site has not been fully "remediated" and I don't think that a site should be developed for use until any contamination is completely cleaned up.
- The noise and odor generated by such a facility will negatively impact the residential areas in both Wilmington and North Woburn (where I live).

I hope that the Board will decide not to allow this trash transfer station proposal. Such a facility should not be located in an area that impacts residential neighborhoods. Thank you.

Sincerely,

A handwritten signature in cursive script that reads "Dorothy J. Macomber".
